Subject: EPA Construction Activity Notification

Dear Lieutenant Fisher -

I left a voicemail for you this afternoon to inform of scheduled U.S. Environmental Protection Agency directed construction work at the former Bremerton Gas Works site which is immediately east of the Port Washington Marina (Figure 1). The work begins this Friday the 11th and run through next week. We are providing this information to your department as a precaution in case the community call 911 due to noise disturbance. See the attached media and public information summary with additional contact information for your use, if necessary.

Do not hesitate to contact me with questions,

Thank you,

Nathan Soccorsy
